The Royal Month and the Royal Disease.

Sudden changes of weather are especially trying, and probably to none more so than to the scrofulous and con sumptive. The progress of scrofula dur ing a normal October is commonly great. We never think of scrofula-its bunches, cutaneous eruptions, and wasting of the bodily substance-without thinking of the great good many sufferers from it have derived from Hood's Sarsaparilla, whose radical and permanent cures of this one disease are enough to make it the most famous medicine in the world There is probable not a city or town where Hood's Sarsaparilla has not proving land is still going on at the train for San Antonio. His family ed its merit in more homes than one, in arresting and completely eradicating scrofula, which is almost a serious and as much to be feared as its near relative, -consumption.

#### For Sprains and Strains

It is useless to apply a liniment that remains on or near the surface. On the contrary, they require something that goes down into the flesh where the trouble is lo-cated. That is why

#### Mexican Mustang Liniment

is the best thing to use for Sprains and Strains. It pe etrates at once to where the injury lies, drives out the inflammation and heals the wounded tissues and tendons. Don't be stingy in using the limiment nor fail to rub it in as thoroughly as the soreness will permit.

Mexican Mustang Liniment is a good thing to have on hand when accidents happen.
